

Will You Be A Part Of Our Visiting Artist Program?

Our goal is to connect artists with kids in our local classrooms.

About

Tippecanoe Arts Federation's (TAF) Lafayette/West Lafayette Cultural Plan Education Committee is creating an addition to our local education resource site, Art Connection, by adding a “**Visiting Artist Program.**” The primary mission is to connect local educators, K-12, with local artists willing to communicate their work through discourse in the classroom. This free resource will help teachers enhance their curriculum by engaging students with artists in their community.

What is Art Connection?

TAF’s current education webpage, Art Connection, is an educational resource for teachers; it highlights educational arts programs in our area. To supplement this site, we want to offer more options for teachers and we want to highlight special talents in our area that are not already part of an educational program. You don’t need an education background to be a part of this. All we ask of artists in the Visiting Artist Program is to come into the classroom to discuss their work and experiences with students. Visit Art Connection at www.tippecanoearts.org/Educators

We Need Artists

We ask artists of all kinds - visual, music, dance, and theatre - to be part of our volunteer program. We want to gather a database of available artists in our area to create a meaningful resource for teachers at all grade levels.

How The Site Works

Artists in the program will be highlighted at our Visiting Artist Page. We will need the artist’s name, e-mail contact, description of work, grade level appropriateness, and images of work. Teachers can then make arrangements with artists by contacting them directly by e-mail.

If you are interested in our Visiting Artist Program, please fill out enrollment form here: www.tippecanoearts.org/TAenroll.html and email your image to Carrie Wing at cawing88@gmail.com.
